

# *ABOUT OUR WINES*

The same principles that govern our choice of ingredients inspire our selection of wines. Most wines on our list are created by small growers who cultivate the vines, pick the grapes, and steward the transformation of grape juice into an expression of time and place, captured in a single wine. These artisans work with the unique circumstances of each season and grape, rather than just making wine. Over the years, we have found certain regions and grape varieties that harmonize with the food of the Midwest and our own style of cooking. Not surprisingly, many of these are from higher latitudes like our own, which yield taut but concentrated wines with pronounced soil-derived flavors. These include noble wines from lesser-known regions, along with more famous sites and varieties.

Headings on this list first sort our wines by grape variety and then by region. If organic or biodynamic viticulture practices are important to you, please feel free to inquire about this to any member of our staff.

It is our pleasure to introduce these wines to you. We hope you will ask our staff to share their knowledge of our list; they would be delighted to answer questions about any selection that intrigues you.

## PINOT GRIS (GRIGIO)

*While Italian Pinot Grigios often lean toward a lighter style with lemon undertones, we search for those that also emphasize body and texture. ## PINOT BLANC

*Unfairly compared to Chardonnay, Pinot Blanc has much more inherent fruit and keeps much longer. Its sea-shell and apple aromas, coupled with ripe acidity and a horizontal mouth-feel make this a sure bet for vegetables, sweet-starchy flavors, and all things white.*

## NATURAL WINES

*These wines are produced with minimal intervention from the winemaker, made from grapes produced in organic or biodynamic vineyards, and fermented with naturally occurring yeasts. In some cases an earthy sourness emerges while other examples are nearly indistinguishable from their conventional counterparts. In all cases these are living wines from living*

2020	CIBONNE “Cuvee Special des Vignettes” (Tibouren)	Provence, France	89

## PINOT NOIR

*Mysterious, seductive, enchanting...no red has captured human fascination like Pinot Noir. Although it's a lighter style of red, it can be fantastically complex with flavors of cherry, herbs, and earth. Best of all is its texture, which is firm, yet velvety. Like the Riesling grape, Pinot Noir shows a diverse range of flavors depending on where it is grown and development due to ageing.*

### **BURGUNDY**

*The most famous of the Côtes du Rhône wine, the “Coteaux” of Châteauneuf-du-Pape, located between the cities of Orange and Avignon, is one of the most beautiful landscapes of Provence. *This grape produces robust wines with a distinctively peppery and red raspberry flavor. It pairs well with similarly bold dishes.*

*Our Syrahs from France originate from the south—in the rocky soils of the Rhone Valley and the Languedoc. They are usually peppery with flavors of game, raspberry, and earth. All are from the Northern Côte du Rhone unless otherwise noted.*

### SANGIOVESE

#### BRUNELLO DI MONTALCINO

*This DOCG region takes the name of the grape, Brunello, a clone of Sangiovese. Along with Barolo and Barbaresco, Brunello is considered one of the “great growths” of Italy. The wines of this region have the longest aging requirements in Italy—five years, two and a half of which must be in wooden barrels. This vigorous and slightly bitter wine differs from Chianti in terms of being 100-percent Sangiovese, full bodied with strong tannins. Brunello, which translates to “little dark one,” is one of the most expressive wines anywhere.*

# CABERNET SAUVIGNON AND BLENDS

## **CALIFORNIA NAPA VALLEY**

*Out of all the new world countries where it has been transplanted, Cabernet Sauvignon has found its most prestigious home in the Napa Valley. The ocean breezes and morning fogs from the San Pablo Bay settle over the vineyards on the valley floor, such as in Oakville, and result in juicy wines with supple yet bountiful tannin. The mountainside vineyards – with cooler nights – boast darker, more concentrated fruit, with a more prevalent acidic structure. Many producers blend grapes grown in multiple sites to utilize the benefits of the different soils and microclimates throughout the valley.*

## MALBEC

*Argentina's national grape has ancestral roots in Bordeaux where it is rarely seen in modern blends. In the AOC Cahors, in south west France, this grape takes top billing with Merlot and Tannat playing supporting roles. A wonderful match with beef, showing rich, plummy fruit with a mouth-coating texture. Some styles show a hint of passion fruit; others cocoa.*

*Our national grape that has transcended its humble origins in Croatia. Zinfandel enjoys a symbiotic relationship with oak and often shows sappy fruit, reminiscent of blackberries and even white fruit such as apricots. These days winemakers tone down the wine's excesses, seeking harmonious styles meant for the table.*
